Subject: EMS Results at Dante Alighieri Academy - 21 Portable Classrooms each outfitted with ONE EMS thermostat

All,

Below is one of the more dramatic results of the Portable Classroom EMS! Imagine if electricity rates had not increased!

RE: Dante Alighieri Academy- September October November December January February March Energy Results

2004-2005 (no energy management in place)

	September	October	November	December	January	February	March	Totals
Kwh	96,621.3120	87,656.4480	95,127.1680	98,613.5040	104,092.0320	126,504.1920	119,531.5200	728,146.1760
\$\$\$	9,029.41	7,993.68	13,465.48	9,469.35	10,070.81	12,631.78	11,883.55	\$74,544.06

2005-2006 (Log-One EMS by Scientific Energy Solutions results)

	September	October	November	December	January	February	March	Totals
Kwh	32,373.1200	54,785.2800	67,734.5280	81,181.8240	101,103.7440	96,123.2640	95,127.1680	528,428.9280
\$\$\$	4,092.08	6,733.20	7,641.53	7652.64	10,899.19	10,314.72	8,461.79	\$55,795.15

See analysis below

The above **savings of close to \$900 per classroom in only 7 months** are the direct result of Log-One's Energy Management System retrofit in classrooms at Dante Alighieri School of the Toronto Catholic District School Board.

These savings are fully and exclusively attributed to the Log-One EMS retrofit as there was no other energy saving measure performed as part of this retrofit.

Further to the above data, at the end of the **full year** the energy **savings** were **\$1,305 per classroom**.

The **equipment pay back** was **less than 6 months**.

The estimated total cost including installation was \$1,079 per classroom which represents a total **pay back of .83 year**.
